Internship

Anudip Foundation:

Feb 2022 – Aug 2022

Role/title: Full Stack Development Intern

- Enhance your proficiency in front-end technologies such as HTML, CSS, JavaScript, and modern frameworks.
- Develop essential soft skills, including teamwork, communication, and problem-solving, within a professional setting.
- Strong understanding of HTML, CSS, JavaScript, and familiarity with frameworks like React.
- Ability to create designs that adapt to different screen sizes and devices.
- Improved coding skills and a deeper understanding of front-end development tools and frameworks.
- Hands-on experience in developing and deploying web applications, understanding the full development lifecycle.

Projects

Feedback App | Frontend Developer

April 2022 – Sep 2022

- Feedback application with a web app in ReactJS.
- Designing and implementing an interactive and user-friendly web application that allows users to add, update, delete feedback.
- Enhanced understanding of ReactJS, including components, props, and state management.
- Gained experience working with mock REST APIs for simulating server-side operations.
- Links: [GitHub repo](#)
- Technologies used: ReactJS, HTML5, CSS3.

Home Automation System

June 2022 – Sep 2022

- To design and implement a cost-effective and user-friendly system that enhances the convenience and energy efficiency of home automation.
- Led the development and integration of hardware components, including microcontrollers, connectivity modules, and relays, ensuring seamless communication and control.
- Gained hands-on experience with microcontroller programming and circuit design.
- Improved understanding of wireless communication protocols like WIFI and Bluetooth.
- Hardware Used: Microcontroller, Connectivity, Modules, Relays.

Movies and TV Shows App | Frontend Developer

Aug 2022 – Oct 2022

- To develop an engaging and feature-rich web application for exploring movies and TV shows, showcasing proficiency in front-end development and API integration.
- Designed and implemented a responsive user interface using HTML, CSS, and JavaScript.
- Integrated The Movie Database (TMDb) API to fetch and display real-time movie and TV show data.
- Enhanced understanding of RESTful APIs and their integration with front-end applications.
- Technologies Used: HTML, CSS, Vanilla JavaScript.

Technical Skills

Languages: C++, Python, JavaScript, HTML, CSS, PHP

Technologies/Frameworks: React JS, Git, GitHub

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design

Education

Lovely Professional University Punjab (Pursuing)

Master of Computer Applications — CGPA: 7.14

2023 – 2025

Jalandhar, Punjab

Cluster University Srinagar

Bachelors of Computer Applications- SDE CGPA: 8.00

2019 – 2022

Kashmir, India

Jammu And Kashmir State Board of School Education

12th with Science — Percentage: 62%

2017– 2018

Kashmir, India
